JB007' is an aluminum trailerable outboard cruiser, which features modern and robust design, complimented by comfort and performance. Designed and built in Saint Petersburg, Russia, this boat follows the best craftsmanship traditions and practices in building tough boats for Northern Seas.

The interior space of the yacht consists of a two-zone central cabin, a bow cabin, an aft cockpit cabin with a double bed, a galley unit and a bathroom with a shower.

The interior of this yacht can be transformed into different layouts: every sofa in the central salon can be folded out into a double bed. Floor and cabinets of the galley unit are made from laminate wood. All of the upholstery is made from light colored fabric. Ceiling is made of a light color vinyl.
